

PK Series Security Key Switches

The dormakaba Prestige Key switch range provides an aesthetically pleasing option for key activation of any dormakaba automatic sliding or swing door operator.

Its low profile modern design and secure cylinder retention along with concealed fixings make this switch the perfect choice for both internal and external applications.

PK switch features include:

- Illuminated mode switch functions;
 - Auto
 - Open
 - Exit
 - Lock (PK4 switch)
- Two position spring return switch (PK2 switch)
- Independently tested and certified by a NATA accredited facility to Australian standard AS4145.2-2008
- Utilises an Australian oval cylinder

- Suitable for most Australian and New Zealand restricted master key systems
- Removal of cylinder by key only
- Concealed fixings
- Minimal projection of 14mm
- Quick and simple installation
- Supplied standard with sealing gasket (PK2 switch)
- Supplied keyed to differ or keyed alike in C4 key profile
