***Providing any or all of the following alerts:
EVACUATION, ALERT, LOCKDOWN, MULTIPLE FIRST
AID ASSIST, MULTIPLE DURESS ASSIST and a variety
of NATURAL DISASTER WARNINGS.***

Indoor Standalone Units are designed to be mounted indoors, however the horn speakers are weather proof and can be mounted outdoors.

***for use in Education, Industry, Mining, Government,
Education, Community, Leisure, Medical etc.***

The AARC-EVAC™ **ARX52-R, ARX53-R & ARX54-R** Standalone Wireless Linked Emergency Alert Siren & Message Broadcast Units, all incorporate an in-built Battery Backup UPS and a Repeater Transmitter. They are fully self-contained making them ideal for use in locations where there is no existing PA system, or to cover areas not serviced by a PA system or as a full standalone network of units to provide for redundancy if the PA system fails for any reason.

When triggered the unit's Wireless Receiver activates standard emergency alert sirens and customisable audio messages. The unit has multiple integrated audio amplifiers driving each of the 2, 3 or 4 speakers. These can be horn or box speaker or a combination of both. The units are designed to operate as a single unit within an AARC-EVAC™ Wireless Emergency Alert System, or as part of a network of self-contained AARC-EVAC™ Standalone units, creating a full Wireless Linked Emergency Siren & Message Broadcast System.

Units are triggered by wireless signals received from AARC-EVAC

- Handheld or Wall Mounted Alert Panel remote transmitters.
- A wireless signal received from an AARC-EVAC Wireless Signal Repeater Unit.
- The front panel buttons on an AARC-EVAC -PA system Transceiver, Message Player unit.
- An external interface unit EIU transmitter (usually triggered by a Fire Panel), or
- Another Standalone Unit, that has been supplied incorporating a Repeater Transmitter

There is an extensive range of emergency alerts, any or all, are available in a system, they include:

Pre-Evacuation Alert, Evacuation, Lockdown, Multi-Location Duress, Multi-Location FirstAid Assist, Cyclone, Bushfire, Lightning, Tsunami and more.

All these alerts include clear and concise voice instructions in any language or multiple languages, as required. All the alert sirens and voice messages are customer designated.
